

LAURA is a modular furniture system suitable for modern homes and public interiors. The incline of the back makes it comfortable for both, sitting up and laying down. Combined with contrasting decorative pillows, it allows for a variety of visual decisions.

Construction made of wood panels, plywood and solid wood gives the furniture exceptional strength. With the built in zig zag steel spring system is achieved a comfortable flexibility and a lasting durability. Elegant steel legs in matte black or wooden frame upholstered in leather. Special use of only eco safe, water-based glues, no odder! The coverslips cannot be taken off.

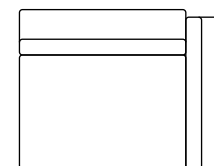

Seat cushions made of 15 cm high resilience foam, individually shaped cushions. Highly flexible and time resistant. Very high level of comfort in a sitting, and especially in a laying position. Ability to take off the slipcovers.

Back cushions made of silicone fiber with an inside nonwoven fabric coverslip. Hidden zippers and ability to remove the slipcovers.
